

## ALPHA CLARINET

*A Clarinet For The Next Level*

Finally, a clarinet designed for students that professionals would be proud to play.

The Backun Alpha clarinet is the result of years of research and development and the desire to give student clarinetists an affordable instrument that won't be restrictive during their development. Made from a special synthetic material chosen for its excellent sonic capabilities and exceptional tone, the Alpha also gives professional players an instrument that they can confidently use for performances where a wooden instrument might not be appropriate.

And, with a special barrel, bell and bore design by Morrie Backun, the Alpha is sure to take you to the next level.
